RE: Kenneth Nana Yaw Ofori-Atta
MC#12-988-026
DOB: 11/7/1959

And To Whom It May Concern;

Dear Sir/Madam,

I am writing to inform you that Mr. Ofori-Atta has undergone an MR-guided Biopsy and has been diagnosed with Prostate Cancer. A surgical intervention has been deemed necessary, after the testing and MRI and Biopsy procedures in March 2025, as I indicated in my February letter. This surgical procedure has been scheduled for June 13, with Dr. Paras Shah of the Department of Urology (see attached letter). It is hoped that a closer date may open up.

Following the procedure, Mr. Ofori-Atta will require a recovery period before he is able to travel to his home country.

Please feel free to contact me if you require any additional information or have further questions.

Best Regards

Ahmed Abdalrhim, M.D. FACP, FSVM
Section of International Medicine in Rochester,
GIM, Mayo Clinic, Rochester MN.
